

What to Expect:

Adult Day Treatment Program (ADT)

ADT is an intensive group psychotherapy experience that focuses on individual participant needs as well as offering added support and learning through the group dynamics. Participants will have the opportunity to connect with peers who can relate to and understand their mental health concerns in a non-judgmental, supportive environment.

Program Details

ADT Program availability may vary per location. Typically each location only offers either AM or PM group.

- ▶ Groups are held Monday – Friday
- ▶ Morning Group: 9:00am – 12:00pm or Afternoon Group: 1:00pm – 4:00pm
- ▶ Participants typically come between 3 – 5 days per week for 8-12 weeks

Who is eligible?

- ▶ Adults ages 18+
- ▶ Individuals needing more intensive and structured support as a step down from inpatient or partial hospitalization or a step up from less intensive services
- ▶ Individuals experiencing symptoms that are impairing their thoughts, mood, behavior, or perception and that interfere with their ability to function in daily life
- ▶ Most health insurance plans, including Medical Assistance and pre-paid Medical Assistance plans cover ADT services

What can I expect?

ADT consists of group psychotherapy and intensive therapeutic services for adults who are struggling with mental illness. The purpose of ADT is to help patients by:

- ▶ Developing and enhancing psychiatric stability, independent living, community living, and socialization skills
- ▶ Providing group therapy to support personal and emotional adjustments and growth
- ▶ Fostering healthy coping skills to enhance quality of life
